## Fancy a Morning Walk & Bird Watching?

*(Binoculars Available at the Reception)*

### WHITCLIFFE WALK:

*1hr. Easy but with some steep steps.*

*With this walk you will get the famous view of Ludlow Castle, the Church and the Ludlow's historic town centre. This route is unsuitable for prams and wheelchairs, due to the steps on parts of the walk.*

*Starting at The Charlton Arms entrance, facing the road, turn right and follow the pavement around to the right and up the steps. Follow this path until it diverges. Take the upper path. After about half a mile, keeping to the path, you will reach the top of Whitcliffe and enjoy the famous view of Ludlow Castle and the surrounding town. Follow the downhill road and you will come to Dinham Bridge. Alongside the Bridge is the Millennium Green, a favourite spot with locals and visitors.*

*Cross the Bridge and continue up the hill keeping to your left. You will arrive at the Castle Gardens. Walk through the gardens until you reach the canon. With the canon behind you walk straight ahead along Castle Street and the High Street until you reach the Butter Cross with its large domed clock. Turn right down Broad Street under the Broad Gate and into Lower Broad Street. At the bottom of Lower Broad Street, you can see The Charlton Arms across the bridge on your right.*
